

PHA may not limit proposals to a single site or impose restrictions that explicitly or practically preclude owner submission of proposals for PBV housing on different sites.

The PHA may select proposal that were previously selected based on a competition. This may include selection of a proposal for housing assisted under a federal, state, or local government housing assistance program that was subject to a competition in accordance with the requirements of the applicable program, community development program, or supportive services program that requires competitive selection of proposals (e.g., HOME, and units for which competitively awarded LIHTCs have been provided), where the proposal has been selected in accordance with such program's competitive selection requirements within three years of the PBV proposal selection date, and the earlier competitive selection proposal did not involve any consideration that the project would receive PBV assistance. The PHA need not conduct another competition.

Units Selected Non-Competitively [FR Notice 1/18/17]

For certain public housing projects where the PHA has an ownership interest or control and will spend a minimum amount per unit on rehabilitation or construction, the PHA may select a project without following one of the two processes above.

- This exception applies to projects in which the PHA is engaged in an initiative to improve, develop, or replace a public housing property or site.
- *Ownership interest* means that the PHA or its officers, employees, or agents are in an entity that holds any direct or indirect interest in the building, including, but not limited to an interest as: titleholder; lessee; stockholder; member, or general or limited partner; or a member of a limited liability corporation.
- Further, the PHA must be planning rehabilitation or construction on the project with a minimum of \$25,000 per unit in hard costs.
- The PHA must include in the administrative plan what work it plans to do on the property or site and how many PBV units will be added to the site.

PHA Policy

HACA is currently undertaking a complete redevelopment and expansion of its Chalmers Courts public housing property in east Austin. In accordance with HUD requirements, this redevelopment and expansion will exceed the required minimum of \$25,000 in per unit hard costs. This property is a high priority for HACA - - it is in an area of expanding opportunity that is rapidly gentrifying and where there is a significant need for additional affordable housing to meet the needs of current residents of the area and others moving to Austin. The first phase of the redevelopment is the construction of 86 new affordable housing units south of the existing Chalmers Courts site. Once complete, HACA will relocate residents from either the east or west side of the existing Chalmers Courts site, minimizing displacement and disruption to families. A redevelopment will then begin on either the east or west side of the site. The exact order of redevelopment is dependent on the financing tools which ultimately will be available, including use of the Low Income Housing Tax Credit program.

The east side and west side redevelopments of Chalmers Courts will involve the construction of approximately 160 units on each side. Once fully completed, the new Chalmers Courts - - south, west and east - - will total approximately 400 units, significantly helping address Austin's affordable housing needs.

HACA has determined that the placement of up to 81 project-based Housing Choice Vouchers, as well as the placement of a to-be-determined number of project-based HUD-VASH vouchers, will significantly benefit HACA's ability to meet its mission of serving the lowest income persons in our community, including seniors, persons with disabilities, transitioning homeless, and families with children.

~~HACA may attach PBVs to projects owned by HACA to improve, develop or replace its public housing property through the Rental Assistance Demonstration (RAD) conversion. A description of what work it plans to do on the property or site and how many PBV units will be added to the site would be later defined through an amendment to this administrative plan.~~

Solicitation and Selection of PBV Proposals [24 CFR 983.51(c)]

PHA procedures for selecting PBV proposals must be designed and actually operated to provide broad public notice of the opportunity to offer PBV proposals for consideration by the PHA. The public notice procedures may include publication of the public notice in a local newspaper of general circulation and other means designed and actually operated to provide broad public notice. The public notice of the PHA request for PBV proposals must specify the submission deadline. Detailed application and selection information must be provided at the request of interested parties.

HACA Policy

HACA Request for Proposals for Rehabilitated and Newly Constructed Units

HACA will advertise its request for proposals (RFP) for rehabilitated and newly constructed housing in the following newspapers and trade journals.

Austin American Statesman

The Austin Chronicle

The Villager

El Mundo

HACA may also advertise the RFPs in other trade journals and industry sources, including electronic advertising, as HACA determines is appropriate for the project.

In addition, HACA will post the RFP and proposal submission and rating and ranking procedures on its electronic web site.

HACA will publish its advertisement in the newspapers and trade journals mentioned
