ANNUAL FAN DRIVE HELPS KEEP AUSTIN RESIDENTS COOL DURING THE SUMMER

Laura's air conditioner went out earlier this summer, just as temperatures in Austin reached nearly 100 degrees.

But Laura, and about 15 other seniors, families with young children, and persons with disabilities living at Chalmers Courts, are still able to stay cool thanks to HACA's longtime community partner, Family Eldercare.

KXAN's Sally Hernandez and John Dabkovich delivered box fans door to door one Thursday afternoon last month as part of Family Eldercare's 28th Annual Summer Fan Drive.

So far, this year's fan drive has raised more than \$154,000, with more than 650 fans donated. The fan drive lasts until Aug. 31.

In 2017, the Family Eldercare Summer Fan Drive distributed 6,740 fans to more than 3,200 households, impacting a total of 9,002 people, including 3,905 Central Texas children.

For more information about the Summer Fan Drive, visit www.summerfandrive.org. If you or need a fan, call the Summer Fan Drive Hotline at (512) 459-4FAN (4326).

I-DADS STUDENTS GRADUATE JUST IN TIME FOR FATHER'S DAY

Congratulations to the latest group of I-DADS (Involved Dads of Action, Developing and Succeeding) graduates! The Booker T. Washington Terraces cohort gathered at Austin Community College, Eastview Campus, in early June for a celebration with their classmates and loved ones.

I-DADS is an award-winning program designed to help strengthen families by reaching out to fathers and father figures living in HACA housing communities. For five weeks, participants attend two, 90-minute sessions for a total of 10 classes. I-DADS covers topics like anger management, making positive choices, developing self-esteem and confidence, and being a positive role model.

Each training is designed to build strong families by giving participants an opportunity to connect with helpful resources, develop communication and parenting skills, and participate in an environment that encourages responsibility and accountability.

IMPORTANT SAFETY TIPS FOR COOKING IN A MICROWAVE

Microwave ovens are convenient because they cook food quickly, and they can be used to defrost frozen food. Below are a few tips on how to use your microwave safely and as intended:

- Use microwave-safe containers (no metal or styrofoam)
- Avoid super-heated water (over heating water can cause it to explode out of your cup)
- Check the hinges, latch and seal to make sure they are working properly
- Don't use a microwave that works when the door is open
- The microwave light should only be used to see what you are cooking — it should not be used as a night light.

For help with your microwave, or if you have questions, call Maintenance at (512) 477-8518.

OVERALL LIFE OF A MICROWAVE LIGHT IS 2,000 HOURS (1.5 YEARS) — IF USED AS INTENDED. THE COST TO REPLACE A BULB IS \$6.
